Visa Type: Student (Visa 500)

CAREER SUMMARY

I have an unwavering passion for technology and a constant drive to explore new advancements. I excel in project-based challenges, consistently taking pride in delivering tasks with precision and dedication.

PROFESSIONAL SKILLS

- Proficient in C/C++, C#, Python; familiar with Java, JavaScript, TypeScript, HTML5, CSS3, jQuery, JSON, XML, and JSX.
- Skilled in MySQL, SQL Server, SQLite, AWS, and other database tools.
- Experienced with version control (SVN, Git) and task management (JIRA, Redmine).
- Developed test specifications for unit and integration testing (gMock, JUnit) with MISRA and Doxygen compliance.
- Familiar with software QA processes, including CMMI and ASPICE.
- Skilled in requirements analysis, design, maintenance, debugging, and language migration, with quick adaptability to new technologies.
- Worked across multiple OS: Windows, Linux, Ubuntu, QNX, and Windows Embedded.
- Proficient with IDEs and tools such as MFC, Kanzi Studio, Visual Studio, React, NodeJS, Flask, RESTful API, Atom, Postman, Heroku, NetBeans, Eclipse, IntelliJ IDEA, Astah, WinSCP, Wireshark, etc.
